

Operating Constraint Working Session

A private 90-minute decision session for a founder or executive who needs to determine what the assessment result means inside the actual organization.

\$2,500 fixed fee

What is included

Assessment and Bundle	The Personalized Diagnostic Brief and Operating Model Toolkit are included.
Structured pre-work	Submit the live initiative, operating context, people, evidence, and unresolved decisions.
90-minute session	Pressure-test the diagnosis and decide the binding constraint, sequence, and owner.
30-day decision record	Receive the agreed moves, explicit waits, owners, evidence, and next-level recommendation.

The decisions it produces

Constraint

What is actually holding the initiative or revenue motion back.

Sequence

What changes first, what follows, and what must wait.

Ownership

Who owns the operating decision.

Evidence

What observable result proves the constraint is moving.

Next level

Whether the team can execute internally or needs a larger engagement.

What it is not

- Not introductory AI or GTM training.
- Not a general coaching or brainstorming call.
- Not implementation or a full transformation roadmap.

Bring the decision, not a polished deck.

The first call confirms fit. If this is the right level, you receive the payment and pre-work links.
